

K-LOVE helps me to be current on events that are happening in the Phoenix area. The local K-LOVE personnel are also available for events in the area for support of their listeners. The effect on the local community, if it were taken off the airwaves, would be dramatically negative. My friends, family and I get great encouragement emotionally and spiritually from this station and I can't imagine not having that source of comfort just a click away!

I believe that this station has a huge impact on the community's moral tone as well. Many troubled people turn to this station for encouragement for what they are going through and many times, turn from drugs, alcohol, cheating on their spouse, etc. Our culture, as it is today, cannot afford to lose such a shining beacon on the hill as K-LOVE has been to our community and to me. Please reconsider this decision. My 8 and 10 year old girls would be heart-broken, as well as thier mom and dad. May God be pleased with you for decision and bless you for it.
